

Landing Page UI/UX Suggestions

Outline:

- Current UI/UX Issues.
- Suggested UI/UX Fixes.

Current UI: [Figma](#), [Website](#).

Current UI/UX Issues:

- **Font Issue:** Different Sizes, Wrong Font Family, Different Font Families.
- **No Interactiveness Issue:** No Visual Elements or Motion Graphics Images/Videos.
- Feels like a **Text Heavy website**, no To the point Words.
- Current **Content/copywriting is not Correct**, it does not tell or Outlines or Connects our Actual Goal/Launch/Product bold use/feature related Content.
- **It doesn't align**
 - ◆ Current Modern Era Website Looks
 - ◆ Doesn't align with our goal which is A **Saas Launch Vibe Create**.
 - ◆ Doesn't align with AI Saas Product Landing page, **ai saas product** which is the **latest technology** in current tech world so it should give the global and broader **tech world the feel of an new latest saas product launch** .
- In the landing page, No Feature Showcase is implemented.

Suggested UI/UX Fixes:

- First Suggestion is Follow or **Take Inspiration from Top Current Saas Launches**, Take Inspiration from Their Landing Page, Note Which Elements in average Saas landing pages are using to make their website Visually Modern Elegant.
- **Smooth Scroller** MUST be needed to apply, it just changes the user experience upside down.
- **Font should be updated into modern fonts families** - (Current Figma UI/UX font is not Applied in the Landing Page, If that font implemented on the website it is Perfect then)
 - Another Step can be, **Take reference Fonts from Other Saas Landing pages.**
- Use of **Gradient Color Palette/Graphic Elements/Transparent/Glassmorphism effects** in Full Website.
- Use of **Gradient Background Color** in the Landing Page.
- Use of **Metallic Icons or 3d Glassy ICONS.**
- In the Hero Section it should have some graphic elements or GD impression maker.
- We need a simple, clean, Modern, Bold UI.
- **Proposed Sections:**
 - **Showcase Animations** Sections.
 - Sketch/Animated Journey Section.
 - Add Try Meta Agent and Update in more Good UI Design.
 - Minimal but Bold ROI Section.
 - How it Works Section.
 - Problems = Solutions
 - Comparison
